WHEN YOU'RE BATTLING PARKINSON'S DISEASE EVERY OTHER OPPONENT SEEMS LIKE A PUSHOVER.

At age 74, Cheng has her own diagnosis with Parkinson's disease. She's a tennis player, and she's a competitive one. She's a member of the University of Chicago Medicine. She has the medical director of our Long Term Care Center, along with our neurologist, Dr. Peter Jenner, and our neurosurgeon, Dr. Robert L. Rodriguez, at her disposal. She's a member of our Long Term Care Center. She's a member of our Long Term Care Center. She's a member of our Long Term Care Center.

Genetic testing without genetic counseling is like going on a road trip without directions.

Genetic testing is a powerful tool that can help you understand your health and make informed decisions about your future. However, it's important to have a professional guide you through the process.
